

Abdurami Taibu

Senior Full-Stack Software Engineer

+233240624914 | abdurami.taibu@gmail.com | Ghana | [[LinkedIn](#)] | [[GitHub](#)]

Professional Summary

Senior Full-Stack Software Engineer with 5+ years of experience building scalable web applications across Python, Java, JavaScript, and WordPress ecosystems. Proven expertise in system optimization, comprehensive testing implementation, and cross-functional collaboration. Track record of delivering enterprise solutions, e-commerce platforms, and improving code quality through testing strategies and mentorship.

Technical Skills

Languages: Python, Java, JavaScript/TypeScript, Scala, Go, PHP, SQL, Shell

Frontend: React, HTML5, CSS3, Modern JavaScript (ES6+), WordPress Theme Development

Backend: Django, Spring Framework, Node.js, RESTful APIs, Microservices, WordPress/WooCommerce

Databases: PostgreSQL, MySQL, MongoDB, NoSQL

Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, CI/CD pipelines, Git, GitHub Actions

CMS & E-commerce: WordPress, WooCommerce, Custom Plugin Development, Payment Gateway Integration

Testing: Pytest, JUnit, Unit Testing, Integration Testing, TDD

Methodologies: Agile/Scrum, Code Reviews, Technical Documentation, Client Consultation

Professional Experience

Software Engineer | 4-Sure Technology Solutions Proprietary Limited

Johannesburg, South Africa | *September 2022 – Present*

- Architected and delivered enhanced claims processing feature for insurance clients, reducing processing time by 30% and significantly improving operational workflow efficiency
- Spearheaded testing initiative by implementing comprehensive Pytest unit tests for 40% of legacy monolithic application, improving code reliability and reducing production incidents

- Conducted thorough code reviews for development team, maintaining code quality standards and mentoring junior developers on Python best practices
- Collaborated with cross-functional stakeholders including product owners, designers, data analysts, and frontend/mobile teams to translate business requirements into technical specifications
- Analyzed and evaluated client requirements, providing technical recommendations that balanced business needs with system constraints
- Resolved critical production bugs with minimal downtime, ensuring system stability and customer satisfaction

Software Engineer (Contract) | Softiva Consult

Ghana | 2023 – 2024

- Developed and deployed custom WordPress e-commerce solutions for multiple clients, integrating WooCommerce with payment gateways and third-party services
- Built custom WordPress themes and plugins using PHP, JavaScript, and MySQL to meet specific client business requirements
- Optimized website performance and SEO, improving page load times by implementing caching strategies and code optimization
- Collaborated directly with clients to gather requirements, provide technical consultation, and deliver solutions aligned with business objectives
- Managed full development lifecycle from initial client consultation through deployment and post-launch support
- Implemented responsive designs ensuring cross-browser compatibility and mobile-first user experiences

Software Engineer | Turntabl Ghana Limited

Accra, Ghana | January 2021 – August 2022

- Designed and implemented robust algorithms and system architectures for new software solutions, ensuring scalability and maintainability
- Developed clean, efficient, and well-documented Java applications following SOLID principles and industry best practices
- Successfully integrated multiple third-party APIs and software components, expanding system capabilities and improving interoperability
- Maintained and enhanced existing software systems through systematic debugging and performance optimization
- **Client Engagement:** Deployed as contingent software engineer at Morgan Stanley, where I contributed to critical system improvements using Scala, gaining exposure to enterprise-level financial technology systems
- Participated in agile ceremonies and sprint planning, consistently delivering features on schedule

Junior Associate | AmaliTech Training Academy

Takoradi, Ghana | *January 2020 – December 2020*

- Developed full-stack web applications and RESTful services using Python and Django framework in an agile environment
 - Maintained and optimized existing systems, databases, and applications, improving performance and reliability
 - Performed code refactoring and optimization, reducing technical debt and improving codebase maintainability
 - Created comprehensive technical documentation for systems and APIs, facilitating knowledge transfer and onboarding
 - Collaborated with team members in daily standups and sprint retrospectives, contributing to continuous process improvement
-

Education

Bachelor of Science in Electrical and Electronic Engineering

University of Mines and Technology, Tarkwa, Ghana | *Graduated June 2015*

Professional Development:

- Software Development and Engineering | Mallon Associates (Online) | *March 2021*
 - Software Development and Engineering | AmaliTech Training Academy | *June 2020*
-

Additional Experience

Assistant Manager | Top Keukens Enterprise, Tarkwa, Ghana | *September 2016 – December 2019*

Tutor | Abura Youth Leadership and Skills Training Institute, Abura, Ghana | *September 2015 – August 2016*

Key Achievements

- Improved testing coverage from 0% to 40% for critical business application, significantly reducing production defects
- Enhanced insurance claims workflow, directly impacting client operational efficiency

- Successfully delivered multiple WordPress e-commerce solutions with integrated payment systems and custom functionality
- Gained diverse industry experience across fintech, insurance, e-commerce, and e-learning sectors
- Successfully transitioned between multiple technology stacks (Python, Java, Scala, PHP) demonstrating strong adaptability
